Write the description of a famous person without saying his/her name

The class is divided into groups. Each group chooses an English song. All the members of the group must know the lyrics by heart and how to sing it aloud. All the members decide together what to write in order to describe the meaning of the song (3 or 4 lines of description). They also have to know the singer or the band and some information about their life. Everybody has to know the translation of the lyrics.
